

The Pasadena Villa Outpatient Treatment network provides treatment for adults, 18 years or older, struggling with various mental health conditions. The levels of care offered include partial hospitalization, intensive outpatient, and virtual intensive outpatient programming.

Levels of Care

Partial Hospitalization Program (PHP)

PHP meets in person five days a week for six hours per day.

Intensive Outpatient Program (IOP)

IOP meets in person three days a week for three hours a day.

Virtual Intensive Outpatient Program (V-IOP)

Our program provides the structured care necessary for meaningful improvement. This virtual level of care is ideal for individuals who need flexible, accessible treatment that fits around work, school, or limited ability to travel or attend in-person programming. Online therapy for mental health conditions is proven to be as effective as in-person treatment if you choose the right program with a strong clinical team.

-Total duration: 7.5 weeks (29 clinical days)
